The EAN is a Southwest Florida organization of individuals, businesses and academic professionals that provides opportunities to create business, social and cultural connections.

"We are excited to kick-off our program year with an evening event that will showcase the EAN and the services we provide, states Bev Larson, EAN board member and chair for the October event. The British Open Pub will provide light refreshments, along with a cash bar and door prizes. It is a great opportunity to connect with current members, new and existing boards of directors, and reintroduce our organization to future members.
